We can assist your company by providing fast, affordable, and reliable results that are essential today. Ready Set Protect can help you make an informed decision about which services best suit your company's needs.

Fast, Affordable, and Reliable Results To Meet Your Company's Specific Needs

Workplace Safety

READY SET PROTECT can assemble any screening program you need. We are certified to preform drug and alcohol testing on your DOT covered employees. Random drug and alcohol testing is the best tool employers have for deterring drug and alcohol use in the workplace. This is essential if your employees drive or operate company vehicles or equipment. Drug and alcohol testing not only helps employers identify workers with substance abuse issues and facilitate their treatment but also reduces employer liability. In addition to drug and alcohol testing, workplace theft and violence are serious problems that not only endanger your employees but also negatively impact your business performance. The Bureau of Labor Statistics estimates that between 1.5 and 2 million workplace violence incidents occur each year. This translates to nearly 1 in every 80 workers committing workplace violence. Our indepth searches pulls from such sources as the Proprietary Offender Data (POD) records, the Department of Corrections (DOC), the Administrative Office of the Courts (AOC), and the Department of Public Safety (DPS) to name a few. Contact READY SET PROTECT to lower your business risks today.

Our Process

READY SET PROTECT specializes in providing services that help your business make an educated decision on selecting and hiring employees. We provide services from criminal background checks to drug testing. We can also provide daily monitoring of your employees 365 days a year. This service automatically searches criminal and motor vehicle charges issued by NC law enforcement. This is essential if your employees drive company vehicles or work daily with children or the elderly.

Our process is simple. Have your potential employee fill out the Release/Consent Form provided with this brochure and fax or mail it back to our office and the results will be returned to you. Most results can be returned to you within 24 hours, giving you peace of mind on your selection process. We can also assist you in setting up a personalized web access account for your business. You simply upload data about potential or active employees through our website and have the results emailed directly to your account—this saves you time in determining if the individual meets your workplace policies. By choosing READY SET PROTECT, you will experience quick, courteous, and professional service to aid your workforce today and in the future.
